Device Lifecycle Dashboard - April 2026

- 707 total devices across global offices. 92 active devices are past their 4 year refresh threshold.
- 56 deployed devices need immediate replacement as they are actively being used by employees today.
- 36 undeployed devices cannot be assigned to new employees without a refresh first.
- 11 retired devices have no audit record and cannot be confirmed as properly wiped - this requires immediate follow up
