Professional Summary

IT and data professional with experience in systems analysis, reporting, and technical problem solving. Skilled in building and improving processes, working with data to support decision making, and collaborating across technical and business teams. Detail-oriented, quick to learn new tools and technologies, and focused on turning information into solutions.

Work Experience

IT Support Technician II

December 2025 – Present

Burton Snowboards – Burlington, VT

- Support and maintain IT systems across a global organization, coordinating with teams in the US, Japan, China, and other international offices to ensure consistent and reliable operations.
- Collaborate cross-departmentally with finance, marketing, and other business teams to assess technology needs, implement solutions, and improve IT processes company-wide.
- Assist in the evaluation and migration of systems and tools, supporting transitions that improve efficiency and standardize operations across the organization.
- Troubleshoot and resolve hardware and software issues for a diverse global workforce, minimizing downtime and keeping business operations running smoothly.
- Document systems, procedures, and technical processes to support knowledge sharing and operational consistency across departments and regions.

IT Specialist

January 2025 – January 2026

Vermont Federal Credit Union – South Burlington, VT

- Deployed, configured, and maintained Windows 10/11 devices during an organization-wide hardware refresh using Microsoft Intune, Azure AD, and remote tools including TeamViewer, Remote Desktop, and Datto.
- Supported core business applications including Microsoft 365 and banking systems, assisted with user access and licensing, and maintained internal documentation to streamline IT operations.
- Monitored and analyzed daily batch processes using Automate while managing support tickets through KACE and troubleshooting hardware and software issues across various platforms.

IT Support Assistant

April 2021 – April 2022

GoodDeal LLC – Williston, VT

- Provided day-to-day technical support for a small second-hand retail store, assisting with POS systems, printers, and basic network troubleshooting.
- Used QuickBooks and Square data to generate sales and inventory reports, helping management make informed purchasing and operational decisions.
- Set up and maintained desktop hardware, barcode scanners, and receipt printers to ensure reliable store operations.
- Created step-by-step documentation and trained staff on new systems to improve operational efficiency.

Skills

- **Data and Analytics:** SQL (SQL Server, MySQL, PostgreSQL), Excel (pivot tables, VLOOKUP, data cleaning, reporting)
- **Device and Endpoint Management:** Microsoft Intune, Lansweeper, Azure Active Directory (Azure AD), Sophos
- **Project and Service Management:** Jira, Level
- **Automation and Scripting:** Automate, Python, SQL
- **Operating Systems:** Windows, macOS
- **Productivity and Collaboration:** Microsoft 365 (Outlook, Teams, SharePoint)
- **Software Deployment:** Software packaging, deployment, and license management across enterprise environments
- **Technical Communication:** Process documentation, user guides, and knowledge base articles
- **Project Coordination:** Time management, cross-team coordination, and stakeholder communication
